

## Agenda

### VDMA Poland / VDMA Plastics and Rubber

Start **17. February 2026** 12:00  
End **17. February 2026** 16:00  
Place **WITTMANN BATTENFELD Polska Sp. z o.o., 96-325 Radziejowice, Krze Duże 10,**

## Experience Exchange Plastics and Rubber Poland

Hosted at the New Showroom & Laboratory Center of Wittmann Battenfeld Polska

We are pleased to invite you to an exclusive industry gathering at the state-of-the-art Showroom and Laboratory Center of Wittmann Battenfeld Polska. This event is designed as a high-level platform for plastics and rubber machinery producers to exchange expertise, explore technical innovations, and discuss the shifting dynamics of the global market.

### What to Expect

This meeting combines strategic market intelligence with hands-on technical demonstrations. We will dive deep into the world of injection molding and robotization, focusing on how digital design, material selection, and structural optimization are transforming the production of high-performance components.

In addition to these topics, we will host a specialized discussion with **Dr. Mikula Thiem and his team** regarding the **newest OPC UA Use Cases** specifically tailored for plastics and rubber machinery. This session will highlight how standardized data exchange is streamlining shop-floor connectivity and driving the next wave of Industry 4.0.

Beyond the technical scope, we will address the economic landscape, providing a clear view of global trade shifts. We will discuss new opportunities across various sectors—including the high-precision requirements of the aerospace and defense industries—and examine how emerging markets and new industrial branches are opening doors for European machinery.

### Hands-on Innovation

Explore the brand-new Wittmann Battenfeld Showroom and Laboratory Center. See live demonstrations of advanced factory integration and witness firsthand how intelligent communication protocols are being implemented in modern production environments.

**12:00 Registration**

**12:30 Welcome Speech**

**Bogdan Zabrzewski**, CEO, WITTMANN BATTENFELD

**Michał Bronowski**, Country Representative Poland, VDMA

**12:40 Presentation WITTMANN BATTENFELD**

**Bogdan Zabrzewski**, CEO, WITTMANN BATTENFELD

**13:10 Presentation VDMA Plastics and Rubber**

**Global Overview / Economic Situation**, in particular:

Situation in the USA: (Greenland, tariffs, EU deal, export forecast) and VDMA position.

China: Competitive situation, machinery exports to/from the EU and Poland, VDMA position.

Free Trade: Mercosur, India.

**Global Overview Technology**, in particular

OPC UA Use Cases

**Dr.-Ing. Mikula Thiem**, VDMA KuG Technology and Innovation

**13:40 Presentation VDMA Poland**

**Michał Bronowski**, VDMA Country Representative Poland

**14:00 Showroom & Lab Tour and Lunch**

**16:00 Closing remarks**

**Dinner tbd.**
